

Membership Standards

The Profession Map sets the international benchmark for people professionals. The Membership standards are a subset of the full professional standards and articulate the expectations for different grades of CIPD membership.

The membership standards apply to anyone coming into membership via Experience Assessment, or anyone Upgrading to Chartered Member or Chartered Fellow. They're based on core knowledge and core behaviour areas of the map, and focus on your expertise in people, work and change, and how you contribute to the profession's values of being principles-led, evidence based and outcomes-driven. These standards may differ slightly in wording from the full profession map.

Use these standards to determine which membership level is right for you.
